RACES AT COUNTY FAIR TO HONOR PIONEER 'HOSSMEN'

FOUR MAJOR HANDICAPS TO BE RUN OFF FROM JULY 24 TO 28

PLEASANTON — The Alameda county fair and race meet, to be held here July 24 to 28, will endeavor to pay compliment to a quartet of horsemen who battled for years to bring back the so-called Sport of Kings to California.

Four major handicaps are to be run in the four days of racing at the five-day fair — seven races daily on the historic old track where Refugio Burnell, first Spanish grandee of the Pleasanton Valley first raced his horses 82 years ago.

The four handicaps will be named in honor of these pioneer racing men, all of whom figured largely in making California second only to Kentucky in the fine thoroughbreds it produces.

One handcap will be named for 81-year old Charlie Boots, who is not only California's oldest living thoroughbred breeder but probably the dean of all American racing men. A second will be a Memorial Handicap to Major Sven Christensen, for years one of the best loved and best known breeders of the Pleasanton Valley.

A third will carry the name of Charles Hartwell, who founded the famous Santa Rita Stock Farm near Pleasanton. The fourth will be for Eddie Thomas, the best race starter who ever came out of the West, but who some 30 years ago had a strong leaning toward trotters and pacers instead of "running' hosses".

Charlie Boots, the octogenarian veteran of them all, has been breeding and training and racing horses on his Milpitas ranch for 61 years. He has a turf record that may stand for scores of years to come. In a single season of racing he sent 108 winners to the post—every one of them foaled, prepped and sent to the post from his big Milpitas ranch.

SUDDEN DEATH TAKES CREAMERY WORKER MONDAY AFTERNOON

NEWARK — The community of Newark was surprised and shocked Monday afternoon when news was received of the sudden death of Francis A. Doorley, 48 years old. He was working at the Cloverdale Creamery Monday afternoon, and about 3:25 he felt delirious, so they called Doctor Holeman at Centerville. Upon his arrival at 3:30 Mr Doorley had already passed away.

He was born in 1892 at Watertown New York. In 1912 he moved to Newark, where he worked as a molder at the Graham foundry for a number of years. He was a world war veteran, and belonged to the United States Navy. He was a member of the Moulders Union and the Salt Workers Union. Deputy Coroner Tom Berge of Irvington took charge of the funeral. He was buried on Thursday morning at the Presdio at San Francisco, after a mass was held at Saint Edwards Church at Newark from the Berge Parlors at Irvington. A beautiful ceremony was performed at the cemetery, as it was a military funeral.

The late Mr Doorley is survived by his widow, Josephine, a daughter Jean, and a sister at New York. He was a well-liked man throughout Southern Alameda County.

FORMER RESIDENT INTERRED MONDAY

Lavenia Baldwin, formerly of Niles, wife of the late Eber Dan Baldwin, was given final rites at the Grant D. Miller mortuary in Oakland last Monday, followed by interment at the Irvington cemetery. She was the mother of Mrs Olive Dillard, Mrs Ann Kientz, Mrs Harriet Landrith, Miss Helen Baldwin, Eber Dan Baldwin, Jr., and the late Harlow Mills Baldwin and Bruce Baldwin. She was a native of Illinois and was 83 years of age. The family left Niles about 20 years ago. Several of the daughters taught in the township and all were graduates of Washington Union High School. The late Mr Baldwin was employed by the old Spring Valley Water Company. He came west from Iowa and lived in Oregon before settling here.

ATTENDANCE GAINS

TREASURE ISLAND — With attendance at the 1940 Golden Gate International Exposition mounting to hitherto undreamed-of proportions, Independence Day attendance figures soared to a record of 130,641 bettering that of July 4, 1939 by 8,062. Exposition parking lot figures indicate thousands of out of state cars visiting Treasure Island daily. Many of these are "repeats", visiting the island daily for periods of from one week to 10 days.

Young Peoples' Camps Now Running In Marin County

Beginning this week there will be a series of camps and conferences for Presbyterian boys and girls and young people. Delegations are being planned from the four Presbyterian churches of Washington Township at Alvarado Newark, Centerville and Irvington. Mr Henry Adams and Mr Arthur Kirk, student pastors of these churches, are leading the delegations.

The camps for boys and girls are held at Camp Kent, located near Muir Woods in Marin county, close to the ocean. The first of the camps is for Junior Boys, ages 9-12 years, which ends July 13. Following it will be the Junior girls camp, July 14 to 19. The Junior High School Camp for boys and girls from ages 13 to 15 will follow, July 19 to 24.

The conference for high school and college ages will be held at the theological seminary campus at San Anselmo in Marin county from July 15 to 22.

These camps and conferences offer exceptionally fine opportunities for supervised recreation and training. The programs are complete and well balanced as to food, activities and study, play and games, and rest and sleep, so as to contribute to a healthy mind, body and soul. There is an opportunity for a few more to sign up for these camps. Any parent or young person interested may secure information by calling Mr Kirk or Mr Adams at Centerville 417.

WARM SPRINGS PLAYERS REHEARSE ANOTHER PLAY

WARM SPRINGS — The Warm Springs Community Players are rehearsing another play, "The Lighthouse by the Sea," to be given at the grammar school here about September 1. The four-act comedy is being directed by Berkeley Buckingham, WPA recreational department.

Niels Nielsen who made such a profound hit in his characterization of "The Village Shylock," in the recent play given by the Niles Parent-Teacher Association is playing the part of the old sea captain. Vivian Addotto will be seen as his daughter and John Cattaneo as an old villager and friend of the captain. Melvin Leal is the fisherboy and Rose Ramos the old maid.

Alvin Lewis plays the part of the state trooper. Eleanor Dunbar is the wealthy visitor to the island and Beatrice Lawrence, her daughter with Bert Dutra, male romantic lead, her nephew. The role of the Englishman is yet to be cast.

WINGS OF FREEDOM

Treasure Island, San Francisco Bay—Miss Liberty, above, releasing one of the hundreds of carrier pigeons which carried the world's smallest copies of the Declaration of Independence—no bigger than a postage stamp—to government heads throughout the Western Hemisphere. Inset, an actual size reproduction of the tiny Declaration of Independence which includes a ringing declaration for 1940 of America's Independence of "the injustice, the hate and the tyranny which are engulfing the Old World."

PORTABLE "LUNG" DEMONSTRATED TO TOWNSHIP GROUP

CIVIC LEADERS SEE ALUMINUM RESPIRATOR IN OPERATION

CENTERVILLE—A demonstration of the aluminum lung, an artificial respirator to be used in cases of drowning, asphyxiation, infantile paralysis or heart trouble was given by the inventor, Dr. F. H. Terhaar at Hansen's hall Tuesday night before about 50 representatives of health and civic groups of the township.

The meeting was arranged by Frank T. Dusterberry, chairman of the Washington Township Health Center board, who said that it is probable that a campaign will be launched to secure funds to purchase a unit for the township. The respirator has been demonstrated before various groups including the San Mateo County Hospital board whcih has ordered a unit.

Present at the demonstration were members of township fire departments, Mrs Frank T. Dusterberry, district president of Women's Federated Clubs, Mrs Loren Marriott, president of the Country Club of Washington Township; Mrs Reginald Calhoun, president of the Niles P.-T. A., Erle Hygelund and Joe Adams, past and new presidents of the Centerville Lions Club; Mrs F. V. Jones and Mrs O. W. Ebright of the Alameda County Public Health Department; County Game Warden Fred Rogers, Dr. George Holeman, Judge Allen G. Norris and other civic leaders.

The aluminum lung was worn during the demonstration by Leslie Rogers of Centerville and George Hinkley of Newark.

The invention is the result of 14 months of experimentation by Dr. Terhaar. It weighs about 10 pounds and the power unit, 40 pounds. It differs from the iron lung in that it covers only the upper portion of the body and is said to promote circulation of the entire blood stream. The power unit can be plugged into an electric socket, an auto battery or can be worked by hand. One of its main advantages is said to be that the patient can sit up or walk about while wearing the aluminum vest.

THE SPIRIT OF THE FAIR

Rich people come long distances and spend considerable sums to see the beauties of Treasure Island. Poor people save up for weeks and months to pay for a day's outing at the big Fair. To both classes, and to those between, a visit to the exposition fills one's mind and heart with treasured memories: hence "Treasure Island."

The big show is presented in a spirit of revelry and fiesta: flags, landscaping, floral masses; music, plashing fountains: a treat to fill one's eyes and ears.

Now a sofber note interjects itself into the holiday scene: the Norwegian building—and no Norway; a French restaurant, and only half a France; the French Indo-China building with a pencilled note on the door "Closed on account of the war. Sorry." (Sort of "Gone With the Wind"—back in half an hour!)

Airplanes zoom and drone overhead—yet nobody ducks. These are not the "egg-laying" kind.

One enters the Japanese and Italian buildings with apologies to one's conscience, and whispered misgivings: Japan, making a pretense to enjoy the peace and serenity of our Occidental scene, while having shattered the peace of Asia for the past eight years.

Italy, now following the lead of Hitler's example, devouring the innocent nations of Europe.

Let us rejoice the Nazis did not desire to participate in a picture as sublime and joyous as that presented on Treasure Island. Only the service and sacrifice of generations of Americans have made possible such a happy spectacle as our fair presents.

Ours is that true culture which delicately springs from the pure seed of FREEDOM!

"When war thunders on the horizon the muses flee!"

"SOULLESS CORPORATIONS" ???

What was your editor's surprise to find in a daily newspaper last week the following paid advertisement appearing under the title "MERCY FOR SALE":

In the name of the American Red Cross and today's armies of suffering mankind, we propose that you try a simple experiment. Though it may not be a pleasant one.

* * *

After you have finished reading this column, we suggest that you close your eyes for a brief moment. And listen . . .

* * *

Listen to the shuffling, rumbling sounds of the greatest army of all time. Listen as though this broken, weary, hungry horde of tortured humanity, of children and babes in arms were trudging endlessly by your own front door. It is the army of the homeless refugees of all Europe. They have been dispossessed of practically all that life holds dear. Many are sick and wounded. Hunger to them is an agony that knows no end. They are not thousands — they are millions — without destination and without hope. They are as real as the familiar faces you will see tonight at your dinner table.

* * *

Their need is tragic, stark and immediate. If you could will an end to this suffering, how much of it would you choose to erase? It is your contribution to the American Red Cross that measures how much this shall be. Mercy is on Humanity's bargain counter — for sale. Let's close our eyes and listen . . . And when you open them, we think you will want to reach in your pocket. What else can we all do?

And this noble advertisement was paid for by none other than your old friend, The Standard Oil Company of California.

The spirit of business has changed somewhat since the turn of the century!

P. S. Perhaps that is what this goshawful war is about: to make us leisure-loving Americans stiffen our morale and learn to appreciate the blessings of freedom and light which we have been more or less taking for granted. — W.W.

REGIMENTATION VS. PREPAREDNESS

Let us not be deluded. The initial successes of the dictatorships over the democracies of Europe are not due to the efficiency of dictatorships as contrasted with the efficiency of democracies. They are due rather to the preparedness of dictatorships for war, and to the "will to war" of the "have nots" as against the "haves." It is the same efficiency that is possessed by the racketeer, with his tommy guns, attacking peaceful citizens in their homes. While the democracies have been making the world fit to live in, the dicatorships have looked on with drooling mouths, and are now leaping for the kill

America is not inefficient. It functions with marvelous efficiency in making the blessings of God available to every citizen; in allowing the greatest degree of personal liberty to each man, consistent with the liberties of his fellow man; and in permitting its industries the right to freedom of enterprise.

America's industries, developed under free enterprise, can produce and process for the material well being of America and for the defense of the nation, goods and arms and fuels in quantities vast and quality incomparable. The nation has only to call, and the men of industry will answer. The only obstacles they will not be able to overcome will be the obstacles that the national government itself may throw in their pathway. Industry, to do its best for America, must be free and unshackled.

Let us not be deluded. We need no regimentation. We need no political overlords in industry. We need no seizures of our properties.

America is in danger; America is calling; American industry is ready.

But American industry cannot work in chains. — (An editorial by Rush M. Blodget).

LET'S KEEP IT CLEAN

The denunciation brought upon his own head by Senator Norris of Nebraska, when he called Wendell Willkie a "second Insull," was voiced as indignantly by fair-minded Democrats as by members of the party Mr Willkie heads. And that national indignation at an attempt at indefensible canard is conclusive warning that the American public is in no mood to tolerate smear tactics in the most critcal presidential campaign year since 1860.

The life story of Wendell Willkie is so typical of the best in American initiative, pluck and straight-shooting that it electrified the public and brushed machine politics aside in his amazing sweep to Republican nomination. He worked his way through school. He went to the front as a fighting soldier in 1918. At 48, his ability as a businessman and his integrity had carried him to the presidency of one of the most important utility firms in America. He speaks so candidly and unreservedly on all issues that old-school politicians are dumbfounded and the man is the street is delighted. To link the name of such a man with that of Insull, which connotes in the public mind unsavory and shady dealing, is an act so unfair and so baseless that it must excite the contempt of every decent citizen.

The arena of American politics is a trench-scarred arena of roaring battle, and the shells of oratorical artillery are filled with high-explosive words. Yet there's a vast difference between hitting an antagonist a fair blow—and fouling him with a knife-thrust in the back. The public expects, demands and is entitled to a fair campaign on both sides; a campaign conducted on the platform of open debate on the issues, and not in the gutter of mud slinging. Let's have a vigorous campaign with no punches pulled. But let's keep it clean!

TITLE? — Quoting an Associated Press story date-lined New York which appeared in daily papers last week:

The Moscow broadcast in English, added that the Tokyo newspaper said

"The Japanese fleet is ready for decisive action should friction arise between Japan and the U.S.A. and Great Britain on the question of establishing a new order in Eastern Asia.

"The Japanese fleet expresses profound indignation in connection witht the circulation of false rumrs to the effect that is is allegedly trying to avoid friction with the United States and Britain.

"The concentration of the U.S. fleet in the Pacific and particularly at the Hawaiian Islands greatly annoys and irritates Japanese naval circles, who are of the opinion that this creates an obstacle to the realization of Japan's plans for a new order in Eastern Asia and penetration to the South."

Can you follow such a line of reasoning? The fleet in question and Hawaii belong to the United States; the Philippine Islands are under our protection for a few more years . . Japan evidently is NOT trying to avoid friction with the United States and HAS "ambitions of penetration to the South"

Troubles, apparently, never come singly.

— ww —

"ALLIES" — Why do the newspapers and radio broadcasters still use the term "Allies"? There aren't any.

Only mighty England is left to carry on the war for civilization against the agents of darkness. Looks like even Japan is seriously considering waging a little private war of her own against English forces in the far east.

France, as in Caesar's time is again the "omnia Gallia in tres partes divisa sunt": she has the nazi-recognized Petain government at Clermont-Ferrand; the British recognized "Free French" government in London, and a big black blot, formerly northern France, now nazi dominated, without any government.
blot, formerly northern France, now nazi dominated, without any government.

Never in the history of the world has a great nation dissolved and all but disappeared so rapidly. Hate, bondage and fear now ride the saddle formerly occupied by peace, life and freedom. The debacle of France is inexplicable.

PROTEST — William Kunze, successor to the imprisoned Fritz Kuhn as national leader of the German-American Bund has "protested to Congress the proposed legislation which would require registration of foreign controlled organizations on the grounds it would force the bund out of existence."

. . Which is exactly the object of the law, and who would care anyway if this immoral, perversive organization were to disappear completely from our fair shores?

Was a time when free Americans of German extraction enjoyed their Turn-vereins and schuetzens, just for fun, exercise (and beer drinking); but this nazi controlled bund which demoralizes girls and perverts deceny and morality should be scotched like the snake it is.

Apeing the bund-leader's plea Al Capone should object to the income tax law and the F.B.I. Then he'd be out of jail, free to run his illicit enterprises again.

A free American cant follow the introvert, nazi type of mind which entirely rejects truth, light, love and justice.

Not omitting mention of Christianity!

HEADACHE — The 15 German "technicians" who arrived in this country the middle of last month, aspiring to establish an aspirin plant in South America are already providing more than their share of headaches in North America.

One member of the group is under arrest in Los Angeles for carrying consular dispatches without registering; a second was arrested in the Canal Zone after throwing his trunk overboard. D. of J. agents fished up the trunk and found it filled with German plans for "action" in three South American countries.

Now Fritz Wiederman, former member of the nazi high command masquerading as German "consul" in San Francisco is defying the F.B.I. to pin anything on him in connection with these espionage agents.

How long, O how long, Uncle Sam, before you take off the velvet glove of diplomacy and handle these foreign rats with the same "concentration" (camps) American espionage agents would receive if operating in Germany?

Frances Anderson Becomes Wife Of George Coefield

CENTERVILLE — Among the loveliest of the weddings which have taken place in the township during the past few weeks was that of Miss Frances Virginia Anderson, daughter of Mr and Mrs Clyde Enrest Anderson of Centerville and George P. Coefield of Mission San Jose which took place last Sunday afternoon at the Centerville Presbyterian church.

The ceremony was read by Dr. J. M. McElhinney of San Jose, former pastor of the church. The bride was given in marriage by her father, her attendants being Mrs Howard Overacker and Mrs Kenneth Foster with Becky Jane Overacker as flower girl. Howard Overacker was best man and the ushers were Michael Overacker and Clyde Anderson, Jr., brother of the bride. Mrs William Laudenschlager of Oakland played the wedding march and Henry Adams, student pastor of the church, furnished vocal music.

The bride carried a white testament marked with streamers of white satin ribbon and lillies of the valley. Her gown was of white lace made with V neck and short puffed sleeves, the floor length skirt being circular. The bodice was trimmed with white velvet ribbons and her finger-tip veil was caught with orange blossoms. The bridesmaids wore old-fashioned sprigged muslin made with hoop skirts. They wore blue gloves matching the bows which trimmed the dresses and carried old fashioned bouquets. The flower girl wore a frock of pale blue taffeta.

After the wedding a reception was held at the home of the bride's parents on Main Street for members of the families, after which the couple left for a honeymoon of two weeks. They will reside at Mission San Jose near the Overacker ranch where the groom is engaged in the cattle business. He is the son of the late Mr and Mrs George Coefield of San Francisco in which city he received his education. He has lived in the townshp for several years.

The bride is a graduate of Washington Union High School and the Mt. Zion school of nursing in San Francisco.

EARS AID IN DRIVING

There is a greater degree of safety to be had if drivers will use their ears as well as their eyes in detecting the presence of an overtaking car, according to the National Automobile Club. The oncoming vehicle may be in one of the two blind spots behind the car — where the rear view mirror will not show it—but an attentive ear can detect its approach nine time out of ten. Try using your ears as well as your eyes the next time you move out of one lane to another. Most drivers are surprised at the results.

COUNTY TAXES JUMP 52 PERCENT IN THREE YEARS

Alameda county spent $15.23 for each man, woman, and child in the county in 1935-36, but in 1938-39 it spent 23.09 for the same purposes, an increase of 52 per cent in the three year period, declared California Taxpayers' association, studying the per capita cost of county government in California.

Over the state as a whole, per capita expenditures for general county government in California have shown a similar upward trend, the association stated. Under the new Federal tax program, at least $1,000,000,000 more in taxes will be levied in the United States. About $60,000,000 of these new taxes will come from Californians. In other words, Federal taxes collected from the people of California alone will increase by a sum equal to about 10 per cent of all the state and local taxes collected in this state last year, the association stated.

"Local government budgets are being made up in almost every community in California. If the members of their governing boards are truly patriotic, if they truly serve the people, they will join in the sacrifice which the Federal tax program makes mandatory for the American people — they will prune the spending programs of their governments to the bare necessities."

MARINE CORPS OPEN FOR ENLISTMENT

Among the hundreds of young men who are now answering the call of the Marine Corps, which is adding 9000 men to its ranks patriotism is still the main motive for enlistment, according to Postmaster Edward E. Enos at Niles.

Each recruit is required to swear allegiance to his country at the time of enlistment. In the course of examinations during the present emergency more and more applicants are revealing a devotion to their country.

For years the U. S. Marines have been noted for their espirit de corps. This has been prompted largely by love for their flag, their country and corps, and accounts in part for their excellent morale.

Information as to enlistment advantages may be obtained from Marine Corps recruiting stations located at 46 Federal Office building, San Francisco and Post Office buildings in Oakland, San Jose and Sacramento.

Rhythm On Ice Exemplified By Ice Follies Skaters

Biggest attraction for entertainment seekers continued this week, according to boxoffice reports, to be the glittering and glamorous Ice Follies of 1940, all-new edition of the famous skating show, now appearing nightly at Winterland, at Post and Steiner streets, on San Francisco's mainland.

The smooth-flowing, richly-costumed revue is steadily adding to its audience total of more than 1,500,000 within the past twelve months.

The current edition of the Ice Follies is entirely different from the one which delighted 400,000 persons in San Francisco last year. Production, costumes, lighting, music and all features have been changed, but the same great cast of international skating stars remains, it was announced.

Amazing to those who see the Ice Follies for the first time is the transposition of dancing routines to ice skating. Experts explain that figure skating is based upon dance steps, with a rapid and continuous rhythm almost indescribably beautiful. Those who have seen the show point out that the seemingly effortless flow of action creates the illusion of dancing in the air.

One of the unusual features of the new Ice Follies presentation is the series of performances staged by Harris Legg, champion trick skater, speed skater and barrel jumper.

Legg first claimed fame as a speed skater. He was a Canadian and Olympic champion during his years of amateur competition. Later he specialized in trick skating and barrel jumping.

In the current all-new edition of the Ice Follies, Legg again leaps over a long row of hurdles and through a circle of flame. Besides this sensational act, Legg performs as a giant Snowman, wearing stilt skates which elevate him several feet above the ice.

Ice Follies tickets are available for every night at Winterland, WAlnut 0112; at Sherman Clay box offices in San Francisco and Oakland, and by mail order addressed to Winterland, Post and Steiner Streets, San Francisco.

NEWARK — The Newark Fire Department lost their first practice game this year, as they were defeated Monday evening in the first game played at the High School grounds by the tremendous score of 21 to 4. Incidently 4 of the runs made by the firemen were made in the last inning, which consisted of two home runs, a three base hit, and one two base hit. Soito hit two home runs for the Newark Sportsmen's Club.

BUYING Gas Heating for our home *now* was the best kind of a bargain. We save money on what our home had to have. It helped, too, that our monthly payments do not start until October 1st. We bought one of the new blower type furnaces with filters just like the furnaces we have seen in several model new homes we have looked through on Sunday afternoons. We figured, too, that the present low prices won't keep low very much longer. We're advising our friends to hop on this bargain opportunity before it is too late.

MASONIC HOME NEWS

By J. H. HEATH

The Fourth of July had special significance for Mr and Mrs John C. Kimball for on July 3 they celebrated their golden wedding, which was cleverly arranged by their children and grand children, comprising a party of 19. The couple has two daughters, Mrs Dallas Sargent of Oakland and Mrs Frank Marquis of San Francisco. It was at the home of Mrs Sargent where the celebration took place.

Gold was the theme of the decorations and the dishes at the dinner table. Mr and Mrs Kimball were seated at the head of the table, the decorations of which featured a miniature "bride and groom." Besides congratulations they received many presents. Upon their return to the Decoto home they received congratulations and gifts from many members of the family. Mr Kimball is a member and Past Master of Mt. Moriah lodge of Masons in San Francisco and at one time served as inspector of one of the San Francisco Masonic districts. Both are members of the Order of the Eastern Star, Mrs Kimball being a past matron. At the home she is second reader of the Christian Science group, which holds regular Sunday evening services in the assembly hall.

The Fourth of July was fittingly celebrated at the home, omitting all fireworks and firecrackers. Entering the large dining room at breakfast approximately 300 members were pleased to find the sideboard and some of the windows decorated with small flags, while at each plate was a tiny bow tied in red, white and blue; also a container of chocolate confectionery. Fried chicken, requiring the lives of 226 home grown chickens born around Easter, was the main dish of the noon meal. At the evening meal there was a generous service of ice cream and cake. The day closed with the regular eve-evening movies, the picture being "The Duke of West Point."

Thomas M. Dillman, 91 member of the Masonic lodge at Norwalk, Los Angeles county, whose life hobby has been the collecting of postage stamps, whose collection now numbers in excess of 15,000 recently donated 1265 duplicate stamps to the Masonic Home for children at Covina. Monday morning he received a letter of thanks from John M. Downen, superintendent.

Mr Dillman has the enviable record of having served as tyler of the Norwalk lodge 25 years, and 22 years as sentinel of the Norwalk chapter of the Eastern Star. A native of the middle west he settled in Norwalk in 1895. He came to the home in May 1937. Besides stamps Mr. Dillman has a fine collection of rare coins.

Bert Todd of the home information bureau, besides being a member of the Masonic order, with lodge home in Honolulu, is proud of the fact that as an Odd Fellow, a member of Excelsior lodge, Honolulu he receives their monthly bulletin which never forgets to state that Excelsior is "the oldest Odd Fellows lodge west of the Rocky mountains". It was instituted on December 10, 1846.

Miss Lamb's Decoto Christian Endeavor Society conducted the Sunday afternoon religious service at the home. The message was delivered by Ray Alcorn of Castro Valley who is fitting himself for the ministry.

Samuel T. Sniffen has returned from an extended visit in Los Angeles and vicinity. The daily games of billiards between himself and Isadore Franck, 93, home billiard champion, and the oldest member of the home in point of residence, have been resumed.

Officer: "What's the idea of driving that truck so fast? Do you think this highway is a race track? Haven't you a governor on this thing?"

Negro driver: "Nawsuh, boss, the governor is back at the capitol; that's fertilizer you smells."

STATE FINISHES FISCAL YEAR DEEPER IN RED

SACRAMENTO — California continued to spend more than it made in the first eleven months of the fiscal year, 1939-40, State Controller Harry B. Riley reported in Sacramento today, with the result that the state had a general fund cash deficiency of $71,213,509 on May 31. This is an increase of $30,672,245 over the $40,541,264 deficiency of May 31, 1939.

The current deficiency is $5,137,865 less than it was last April 30, Riley said, due partially to the repayment to the general fund of $3,993,616 by the Veterans Welfare Board, part of a $5,495,616 advance made in December of last year.

The state spent $17,048,664 more than it made in the first eleven months of this fiscal year, the controller revealed. Expenditures totaled $186,306,432 while revenue amounted to only $169,257,768.

The expenditures were $8,941,494 greater than the $177,364,938 figure of the corresponding period a year ago; revenues were likewise greater this year than last exceeding the 1938-39 figure of $162,349,151 by $6,908,617.

DECOTO — John Fletcher Caravallho, 7 years old, of 425 7th street, Decoto, is recovering from a broken leg suffered on the 4th of July when he was struck by a car near the Masonic cemetery as he crossed the highway at the scene of a grassfire thought to have been caused by a cigarette or fire cracker thrown from a passing car.

Elmer E. Comingore, 32, of 303 N. E street, Porterville, was not held, as witnesses said the child ran directly in front of the car during heavy holiday traffic. The boy was thrown about 20 feet by the impact of the car and had his leg broken at the pelvic region, with contusions of the head and face. He was taken to the Fairmont Hospital.

The fire was extinguished by the Decoto fire department.

Musical Group Reports Progress At Dinner Meet

Progress in the organization work for the Southern Alameda County Musical Association was reported at a dinner meeting of the board of governors held at the Hotel Belvoir Monday night July 1. Frank Mancini, musical director for the schools of Modesto who is teaching this summer at the University of California, and Mrs Mancini were guests. Presdent John Kimber of Niles had charge of the meeting.

It was the consensus of opinion that San Leandro should be included in the association and an amendment to the by-laws is expected to be adopted at the next meeting of the board of governors on August 5. This would increase the board to 30, six governors to be elected from San Leandro. This election will probably take place at a meeting of committees to be held on September 16, at which time representatives of civic, social, musical and fraternal organizations of the southern end of the county will meet to plan for the annual dinner on September 30. The first rehearsal of the chorus has been set for October 7, and the first concert of the band and chorus will probably be given near the Christmas holidays.

A report of organization work done in Hayward and San Leandro was made by Mrs Nellie Gordon, executive secretary, who was highly praised for progress made. Mrs Gordon is visiting in the other townships this week.

Mancini asked that he have a committee to aid in organizing the instrumental groups of the association and appointment of this committee was left up to him. Heads of music departments of high schools at San Leandro, Hayward, Centerville, Pleasanton and Livermore will probably be included.

Mancini expressed approval of plans and progress made, saying that he would be glad to do all possible to aid in promoting the organization.

Oaks, second vice president; Harold DeLeon, secretary-treasurer; Tony Alameda, tail twister; Tony Petsche, Lion tamer and Manuel Lewis and Leland Martin, directors.
